

ASP.Net / C# Web Developer

Social Motion is seeking a sharp, motivated developer with web development experience, preferably in a Microsoft Windows environment. Candidate will participate in the design and development of online web communities with emphasis on advanced Cascading Style Sheets (CSS), JavaScript, and AJAX in an ASP.Net 3.5 environment. Position may be part or full time in downtown Seattle.

Responsibilities include:

- ✓ DHTML/CSS design, coding, and optimization
- ✓ ASP.Net C# development
- ✓ Participating in web community design, skinning, and testing
- ✓ Design and development of mobile social networking interfaces

We're looking for a visually articulate and technically savvy individual who can conceptualize and communicate user experience ideas using CSS, and XHTML, work independently (on-site) and in a small team environment, and create simple, clean, and compelling user experiences. The ideal candidate will have passion for creating innovative technologies that make a real difference in online social network communities. This is a great opportunity to participate in a small company environment and have multiple responsibilities.

Qualifications include:

- ↻ In-depth understanding of online social networking sites (MySpace, etc.)
- ↻ Strong knowledge of and demonstrated practical experience with: hand-coded HTML, CSS, DOM, C#, and AJAX.
- ↻ Programming experience with ASP.Net and Visual Studio preferred.
- ↻ Experience with Microsoft SQL 2005 and/or mobile technologies a plus.
- ↻ Understanding of and ability to apply best practices for web user interface design a plus (re: Steve Krug's book "Don't Make Me Think").

Candidate should have a high level of self motivation, strong analytical and creative problem solving skills, attention to detail, and have excellent organizational and communication skills.
