

CSS / Web Developer

Social Motion is seeking a sharp, motivated senior developer with 3+ years of web development experience in a Microsoft Windows environment. Candidate will participate in the design and development of online social networks with heavy emphasis on advanced Cascading Style Sheets (CSS) in an ASP.Net 3.0 environment.

Responsibilities include:

- ✓ Advanced CSS design, coding, debugging, and optimization
- ✓ Designing creative and easy-to-use user interface experiences
- ✓ Implementing design and user interface concepts in CSS and HTML
- ✓ Limited JavaScript and C# development

We're looking for a visually articulate and technically savvy individual who can conceptualize and communicate user experience ideas using CSS and XHTML, work independently (on-site) in a small team environment to create simple, clean, and compelling user experiences. The ideal candidate will have passion for creating innovative designs and technologies that make a real difference in social networks.

Qualifications include:

- ↻ Excellent knowledge of and demonstrated practical experience with *hand-coded* HTML and CSS 2.0 (including an understanding of the DOM)
- ↻ Debugging CSS issues in Internet Explorer v6+, Firefox v2+, and Safari v3
- ↻ Development experience in an ASP.NET environment
- ↻ Ability to incorporate inline JavaScript function calls into HTML
- ↻ Strong familiarity with online communities such as MySpace and Facebook
- ↻ Experience with C# development is a plus (but not required)

Candidate should have a high level of self motivation, strong analytical and creative problem solving skills, attention to detail, and have excellent organizational and communication skills. An understanding of and ability to apply best practices for web interface design is a strong plus. This is a great opportunity to participate in a small company environment and have multiple responsibilities. Visit our web site at WWW.SOCIALMOTION.COM.
